Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th St. SW
Washington, DC 20554

Re: WT Docket No. 10-4, Amendment of Parts 1, 2, 22, 24, 27, 90 and 95 of the
Commission's Rules to Improve Wireless Coverage Through the Use of Signal Boosters

Dear Ms. Dortch:

Public Knowledge and the New America Foundation filed timely comments at 2:35 PM Monday, July 25 in WT Docket No. 10-4 on the matter of Commission's Rules to Improve Wireless Coverage Through the Use of Signal Boosters. We received a confirmation page upon submission of our document which included the following link:
<http://fjallfoss.fcc.gov/ecfs/upload/viewAttachment?location=7021696868>

We have confirmed with the ECFS tech support staff as well as with the Office of the Secretary that the file has since become lost in the filing system and that no record exists of our filing. Further, the link that we received with our confirmation no longer functions. We are therefore re-submitting our comments through ECFS. We thank the Commission for its assistance in this matter.

Respectfully submitted,

/s

Harold Feld
Legal Director
Public Knowledge
